

Toastmasters International website “hiding” places for tips/tricks/secrets

Kay's Disclaimer – It's true, 35 years ago I was able to “crash” a couple of financial institutions mainframes with my crazy – “I wonder what happen if I move C level code around in files”.. Computers & software are much better TODAY.. I have NOT been able to “crash” any system in over 20 years now. LOL..

Tip # 1 – What is a “media center” and why do I care ??
